

TAMBOUR paints

Future Ecological Aspects

Tambour Green Label
Low VOC

Background

- ✓ In 2007 both NAFTA & EU have enforced the **LOW V.O.C directive**, featuring minimum level of VOLATILE ORGANIC COMPOUNDS within various industries, including the paint industry.
- ✓ Tambour adopted the strict European directives & guidelines as a mean to protect both the environment and the health of the end users.
- ✓ Therefore, Tambour has made the necessary adoptions to existing products as well as developing new ones.
As a result, Tambour is now able to present a large variety of water based eco-friendly products for various use, according to the strict European standard.

Background

- ✓ Tambour has a wide range of water based & eco-friendly product, featuring a wide variety of infrastructures available for use with Tambour's eco-friendly products: **Exterior & Interior walls, wood & metal elements** [furniture, doors & frames, railings, gratings, veneer etc.] **and Decorative Painting**
